Overview

- Recycled white wood pallet
- Double-faced, non-reversible
- Partial four-way entry

Components & Configuration

- 7 boards on top deck/5 boards on bottom deck*
- Nominal 6" top and bottom leading edges
 - Two 4" butted boards are acceptable
- Three stringers
- Hardwood and/or softwood species lumber
- Standard nails or stiff stock wire fasteners
- If heat treated, pallets shall be legibly stamped on both 48" sides of the pallet.

Premium A Grade Pallet Will Not Have:

- Space between boards greater than 4"
- Protruding nails outside the perimeter of the pallet (any protruding nails must be cut off or hammered to the wood)
- Visual contamination due to product spillage, external substances, etc.
- Any debris or material such as stretch wrap, cardboard, stickers, gravel, dirt, etc.

Dimensions

* Number of top and bottom deck boards may vary based on pallet configuration.
